RADIO ADVERTISING

Every station provides some kind of community bulletin board. Most require that you send the release **at least two weeks before you want it announced.**

A CD or **digital copy** of my music is available upon request for radio spots. Have the local DJ play a song for background as they read the following script. Most stations will charge air time for this one minute time spot, but it is well worth it. Strategically placing multiple spots throughout the programming day will have an immeasurable impact on the exposure of the meeting to the community. If the station carries a Gospel program, please leave the CD for their library. I can also make myself available for a phone or in-person interview.
